

Layout Managers

- Problem: how to arrange Gui elements when a window is resized
- FlowLayout
 - default
 - left-to-right arrangement
- BorderLayout

- `panel.setLayout(new BorderLayout ());`
- `panel.add(component, BorderLayout. NORTH);`

Layout Managers

- GridLayout

7	8	9
4	5	6
1	2	3
0	.	CE

- `new GridLayout(4, 3);`
- `//add components in sequence`
- Combining layouts
