

Visitor Collection Tool

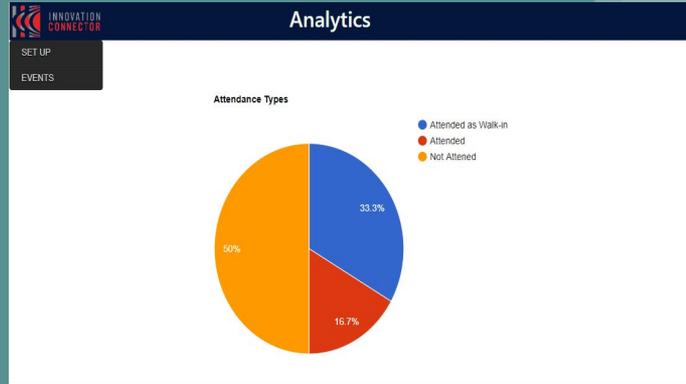

Client: Ted Baker at Innovation Connector

**BALL STATE
UNIVERSITY**

Purpose:

- Track attendance for various Innovation Connector events.
- The software allows the guests to check in and register; it also allows employees to access the 'manager dashboard'.
- The manager dashboard can be used to import events from eventbrite, add/edit attendees, and send thank you emails to attendees.

Features:

- Creating events
- Registering attendees to events
- Attendees checking into events
- Analytics of attendance records

Tech Stack:

- Client Side - HTML, CSS, JavaScript
- Server Side - Apache Web Server running PHP
- PhpStorm
- MySQL database
- EventBrite API
- SendMail
